

This is an ERRATA Note.

The filing on EFCS shown on this submission confirmation was not submitted confidentially (that was not the intention).

The Exhibit 2 has the word "confidential" left in the title given to the file years ago, but it was not submitted confidentially, and it is in fact no longer a confidential document.

I am aware of no mechanism to submit a filing on ECFS confidentially (there is on ULS - pleadings, but not on ECFS).

ECFS staff, however, placed this Exhibit on EFCS manually in a confidential manner. They also placed the further comments file on ECFS manually in confidential manner although it did not have the word "confidential" in the title. (I was not contacted on this.)

I, Warren Havens, saw this today, 4.15.11 AM on EFCS and called to discuss it, and was referred to Yolanda Lee at 202 418 7990. I left here a voice mail on this matter.

The filers request that the FCC change the setting of the "further comments" and "Exhibit 2" to normal publicly accessible mode, and do not change the date of the submission.

There are many documents placed in the public domain, on the Internet, that are marked confidential, proprietary, copyrighted, etc. but that are made public by the party publicly posting the document.

My contact information is on the filing. Please call if you have any questions on above matter, and to confirm the above request execution.

Thank you,
Warren Havens
